Sources: CAA, AIA, Border stations, BoG
Processing: INSETE Intelligence
- Air arrivals refer to arrivals of passengers from abroad regardless of place of residence and nationality
- Road Arrivals refer to road crossings of the border by foreigners
- The arrivals of the border survey refer to arrivals of residents of other countries regardless of nationality

Special thanks

The creation of this bulletin is based on publicly available sources and on data provided by various entities (CAA, AIA, Fraport Greece, border stations) which we thank.

Notes and explanations of the tables can be found in the annex to the Bulletin. For any further information, clarification or suggestion, you can contact the editorial team.

Contents

1. Air Arrivals, August 2022 5

1.1 International Arrivals at main Greek airports 6

1.2 Domestic air arrivals at main Greek airports 9

2. Road Arrivals, August 2022 12

3. Balance of Travel Services, July 2022 15

3.1 Arrivals 16

3.2 Receipts 18

4. Quality Indexesç, August 2022 20

4.1 GRI in Greece and Competitive Countries 21

4.1.1 GRI in Greece and Competitive Countries per month 21

4.1.2 Quality indexes in Greece and Competitive Countries 22

4.2 GRI per star category 23

4.2.1 GRI per star category per month 23

4.2.2 Quality Indexes per star category 24

4.3 GRI per geographical unit 25

4.3.1 GRI per geographical unit per month 25

4.3.2 Quality Indexes geographical unit per month 26

4.4 GRI in Athens, Thessaloniki and competing cities 27

4.4.1 GRI in Athens, Thessaloniki and competing cities per month 27

4.4.2 Quality Indexes in Athens, Thessaloniki and competing cities 28

4.5 GRI in Mykonos, Santorini and competitive destinations 29

4.5.1 GRI in Mykonos, Santorini and competitive premium destinations 29

4.5.2 Quality Indexes in Mykonos, Santorini and competitive premium destinations 30

4.6 GRI in mass Sun and Sea destinations 31

4.6.1 GRI in mass Sun and Sea destinations per month 31

4.6.2 Quality Indexes in mass Sun and Sea destinations 32

5. Annex: notes and explanations of the elements of tables and graphs 33

5. Annex: notes and explanations of the elements of tables and graphs

International Air Arrivals: The data relate to arrivals of passengers on international flights regardless of their place of residence. For the Athens airport data, due to the extraordinary circumstances during the period March 2020 - June 2021, the corresponding passenger volume estimates should be treated with caution and comparisons avoided. The geographical grouping of airports is as follows: Dodecanese: Rhodes - Kos - Crete: Heraklion - Chania, Ionian: Corfu - Zakynthos - Kefalonia - Aktion, Cyclades: Mykonos - Santorini, other: Samos - Skiathos – Kavala - Mytilene.

Domestic arrivals at the main airports: A passenger making a round trip is counted twice: both upon arrival at the destination and upon return at the origin. The data of the last available month for the Athens airport are an estimate of INSETE Intelligence. The geographical grouping of airports is as follows: Dodecanese: Rhodes - Kos, Crete: Heraklion - Chania, Ionian: Corfu - Zakynthos - Kefalonia - Aktion, Cyclades: Mykonos - Santorini, other: Samos – Skiathos - Kavala - Mytilene.

Road arrivals: The registration of road arrivals is done by the local police stations on the basis of nationality, regardless of the place of permanent residence and-therefore - includes immigrants in Greece returning from a trip abroad. The allocation of arrivals per country is as follows: Albania: Kakavia - Krystallopigi – Sagiada - Mertzani, Bulgaria: Ormenio – Kyprinos - Nymfaia - Promachonas - Exochi - Ag. Konstantinos, North Macedonia: Evzonoi - Doirani-Niki, Turkey: Kastanies - Kipoi.

Arrivals based on Border Survey of the Bank of Greece: The data are estimated based on a sample survey and relate to arrivals of residents of other countries in Greece, regardless of their means of transport (by air, by road, by sea) and regardless of nationality, i.e. they also include Greek permanent residents abroad while they do not include foreigners permanently residing in Greece.

Receipts based on Border Survey of the Bank of Greece: The data are estimated based on a sample survey and relate to the spend of residents of other countries while travelling in Greece, regardless of their means of transport (by air, by road, by sea) and regardless of nationality, i.e. they also include Greek permanent residents abroad while they do not include foreigners permanently residing in Greece.

Review pro - Hotel Quality Indexes: The tables capture the Global Review Index (GRI ®) as well as the individual customer satisfaction indicators of hotels, calculated by ReviewPro, a company specializing in measuring the online reputation of hotels. This indicator is calculated for each hotel, by analysing the variables associated with guest comment posts on hundreds of social media platforms, hotel commentary websites and OTAs (online travel agents) websites. Indicators above 80% indicate a positive experience. The indicators are qualitative and can be used to assess the evolution of the quality of services provided. The data presented are based on reviews by Greek hotel and hotel customers in the competing destinations depending on availability. Therefore, the indicators reflect the competitive level of the Greek hotel product, as well as that of the competing countries.
